If you could confront the adult world on one issue, what would it be and why?

I think that adults need to stop treating us like we are in kindergarten, such as the tardy policy at school. When you gotta go, you gotta go.

-D. Keck

They need to stop treating us like our opinion doesn't matter because if you think about it, in the future we are going to be the ones making the decisions anyway.

-V. Maslanka

I'd tell them to ease up and let teens make their own mistakes. I feel we will learn better that way.

-M. Paolucci

Adults stereotype teenagers on the way we dress or whenever something bad happens. They always seem to blame everything on us, but it's not always our fault.

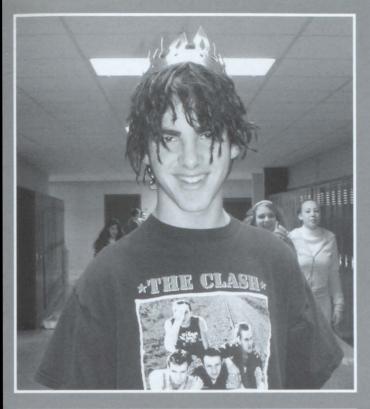

-L. Martin

I would confront them on the issue of social security, because we will be paying for it and there won't be any money when it's our turn to collect.

-J. Smade

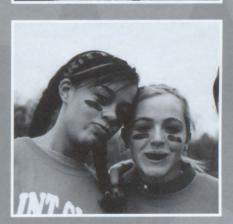

Sometimes adults just need to give us some space so that we do not feel so locked up all the time. We need to do things on our own or we'll never be able to experience life.

Kirsten Dunst, because she is good looking and rich. All of my guy friends would want her to be at my party.

-R. Bremerkamp

-S. Dietlin

If given a choice, would you chose beauty over brains and why?

I'd want the good looks, because brains get you nowhere in life anymore. Everything is based on appearance!

- C. Kivel

I would become a beauty, because anyone can be smart and people don't care about brains as much as they do as looks.

- J. Delor

I would become a genius, because then I could use my knowledge to help people and make the world a better place.

-L. Muggelberg

I would definitely pick brains, because you could use your smarts to be rich and then just get plastic surgery.

-M. Burkart

I would become a genius, because I'm not the best in school and I would like to be.

-L. Spaulding

I would become a genius, because I have not been doing well in school. If I could get through school, then what else matters?

If you could change one thing at St. Clair High School what would it be and why?

More food choices. We only have hamburgers, cheeseburgers, chicken patties, fries, Bosco sticks, etc. There needs to be more healthy food choices and more of a variety.

-C. Winkle

I would change the time that school starts because it is too early. If we started later, people would be more awake and do better in school.

-S. Lucas

I would make the lunch times longer, because if you eat in the cafeteria, waiting in line takes up almost your whole lunch hour.

To our Graduate,

The time has gone by so fast. It seems like yesterday when we watched you take your first steps in the front doors of Eddy Elementary starting kindergarten, "You were so cute". We've watched you grow through the years and persevere through the changes and challenges that every new school year presented. You've had teachers that you thought were great and some that you thought were out to get you because they pushed you harder than others. You have met a lot of new people and made some very good and dear friends along the way. Now, the time has come to wear your cap and gown and celebrate all the years of hard work.

As you graduate and the next chapter in your life begins, remember to always take the path that you choose, not one that is chosen for you.
